Yousef Isaifan

Software Developer | Emakin Developer | BSc Computer Science |
ETL & Data Pipelines | AI & Automation | Flutter
Palestinian Authority

Summary

Software Developer with a BSc in Computer Science, passionate about backend systems, frontend development, automation, and machine learning.

At Experts Turnkey Solutions, I design and optimize business workflows using Emakin and PostgreSQL, focusing on data-driven automation and creating real-world impact.

Outside of work, I dive into AI-driven projects like a real-time navigation system powered by LLMs and live data pipelines to support safer travel.

I'm always exploring new technologies, writing clean, efficient code, and solving meaningful problems through tech.

Experience

Experts Turnkey Solutions

Software Developer

December 2024 - Present (7 months)

Ramallah, Palestine

Started with a focused training program on Emakin, a low-code platform for process automation and data flow management. The training covered key areas including workflow design, form creation, and XML live data handling.

Continued as a Software Developer contributing to real-world solutions by developing workflows, configuring data structures, and automating processes using Emakin. Gained hands-on experience with PostgreSQL database integration, XML logic, and system customization to streamline internal operations.

Experts Turnkey Solutions

Oracle APEX Developer Intern

July 2024 - August 2024 (2 months)

Ramallah, West Bank

Education

Birzeit University

Bachelor's degree, Computer Science · (September 2019 - February 2025)
